

# Emcol L-Type

## Splendid Operability at Installation !!

Emcol L-Type has been specially formulated as an easily operable cold-mixed instant road repair combining the high durability and waterproofing features of Emcol Standard.

### Usage

1. Repair of potholes
2. Repairs to cracks
3. Manhole reinstatements

### Feature

Emcol L-Type (5mm top) has excellent workability and doesn't stick to tools and other equipment. L-Type hardens and cures well resulting in a high quality repair finish.

### Guidelines for application

1. At the edges of the repair, it is recommended that L-Type is used with **Fine Grade Emcol**.
2. For deeper holes, it is recommended that **Drainage Emcol** is used in addition to L-Type.
